# Corporate profile

## Corporate profile

Retain customer for life time

The global real estate industry marked by remarkable growth, consolidation and new challenges. CEC was established with the objective of providing top quality structural engineering and geo-technical engineering services for the Precast industry.

CEC offers drafting services in Architectural and Structural Precast- both for erection and shop. We have also been granted Patents for optimizing several constructions. CEC is represented in the technical committees of the ASCE and PCI.

CEC was born fourteen years back in 1989 with our head office in Reston,VA. Our branch offices are in several US cities and other parts of the globe. In US, we have worked in VA, MD, AZ, NC, MI, CA, NY and rapidly expanding our activities to other states. We are a team of dedicated experienced structural engineers and software developers specialized in the field of Precast Concrete industry.

# Services

## Services

- We make drafts and designs for:
- Parking Garages
- Light Industrial Buildings
- County Correctional Center
- Curved Wall Panels Staircases
- Architectural Precast

### Skills

#### Quality conscious:

At CEC, quality assurance is a key element of our process. Measurement, Project Planning and continuous improvement of standards, procedures and tools are an integral part of our methodology.

#### Speedy Delivery of Projects:

We challenge competition with speed. We follow up-to-date co-ordination of projects, fast track service provision and highly automated processes.

#### Economy at providing services:

CEC works round-the-clock. When the sun sets in one of our office. Our other branch offices are up and working on your project. We can often save you more than the cost of our services alone.

# Cutting edge

## Cutting edge

Retain customer for life time

The eight steps we follow to achieve cutting edge advantage:

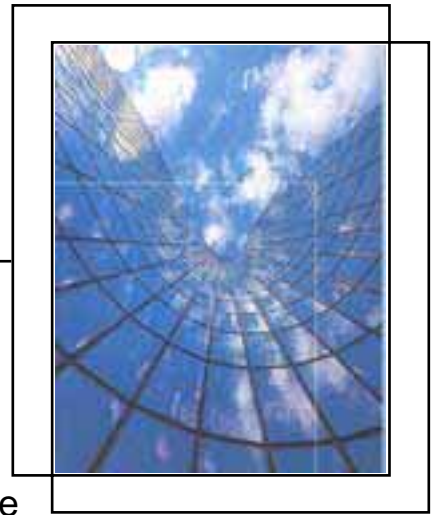

1. Conceptualize the structure
2. Study the Engineering
3. Process Engineering for Drafter
4. Drafting the drawing
5. Redrafting as per check
6. Re-checking
7. Independent checking of Drawing
8. Independent checking of Drawing

# Client testimony

## Client testimony

Retain customer for life time

"I have reviewed the drawings received today. They show that you made a remarkable effort in the last few days to get this submittal together. You should be very proud of the progress you have made."

**-Ned M. Cleland, Blue Ridge Design**

"You have accomplished a great deal in the last year and can take pride in the work you have done. I've been very impressed with the quality and understanding that you have exhibited and appreciate all of your efforts in our work together."

**- Stick Wieber, Site and Structure**

"Thanks so much for a great looking set of drawings. We really appreciate your effort in getting the drawings together for submittal so quickly".

**- James M. Williams, Quality Designs consultants**
